

The following document contains the **work** of thousands of People.  
Yes, **THOUSANDS OF PEOPLE.** blood, sweat, tears, hissy fits,  
broken fingers, ruined relationships and broken vehicles.  
All to make the **creations** you are about to see.  
This document is a **gift**, but you do not own it. It belongs to the  
artists represented here. You may not reproduce it or sell it.  
**It is a gift**, get it?

We make this gift available not so you can sit in front of your  
computer and vicariously live through us. But as a **call to action**,  
a call to create better.

Take some time with these photos. **Dwell on what moves you.**  
Then turn off this computer and go pick up a hammer,  
paintbrush, sewing machine or **flame thrower**,  
and make something better.  
You might not think you have the money or resources to do so,  
but we disagree. The artists here faced the same problems,  
and found a way. **So you have no excuse.**

ECHOES FROM THE URBAN INNERGROUND

THE MIN BASE SOUND DESIGN IS A 24-HOUR PIECE THAT EVOLVES ACCORDING TO ARCHETYPAL MOVEMENTS OF PEOPLE IN MAJOR METROPOLITAN AREAS AROUND THE WORLD. THE TOP OF EACH HOUR IS DENOTED BY SIRENS FOLLOWED BY A POEM WRITTEN AND RECORDED BY INCARCERATED YOUTH. THE SOUNDSCAPE INCORPORATES FIELD RECORDINGS, ORIGINAL MUSIC AND COMPOSITIONS. THE PIECE INTENDS TO SONICALLY ENTWINE BRC WITH OTHER VIBRANT CITIES, AS WELL AS TO CONTRAST THE ESCAPISM COMMON TO BRC. WE BELIEVE OUR EXPERIENCES MOVE WITH AND WITHIN US. WE HOPE THIS PIECE WORKS TO SONICALLY AND PSYCHOLOGICALLY MERGE OUR MISSED URBAN EXPERIENCES.

THE CLEU IS YOU  
BY LECLEU

**WHAT'S THE CLEU?**

The Cleu is a symbolic representation of our vision of At-Onement and the five great miracles of Existence-- the real clues to who we are.

- CONSCIOUSNESS
- LIFE
- EARTH
- UNIVERSE

The outer circle represents the Universe (Energy), the very first manifestation and source of all Existence. The next largest circle represents the Earth (Matter), the distillation of Energy into elemental form, the beginning of rhythm. The small innermost circle represents Life, that peculiar rhythmic interaction of Matter that self-replicates. The circle joining Life with the Universe represents Consciousness, the miraculous form of Life that "knows that it knows."

All the circles together represent At-Onement, possibly the greatest miracle of all, the harmonious unification of all Life, especially conscious Life. For examples of At-Onement, we look to the mystics-- Jesus, Rumi, Buddha, Lao-Tzu, Einstein, Gandhi, Black Elk, the Dalai Lama, and others not quite so famous. When all conscious lifeforms reach their level of compassion and awareness, Existence will again be truly At-One. That's the Cleu!

to remind yourself and others of  
miracles of Existence,
